

data sheet:

TAB Employee Work Area Safety Shield

TAB's Employee Work Area Safety Shield is an easy-mount plexiglass barrier that can be placed on any flat surface to instantly create a non-intrusive physical shield between people or workspaces.

Construction

- Plexiglass panel: 1/4 inch, clear or frosted
- Base: black melamine with 3mm PVC edge
- Base mounts on any flat surface: desk, table, countertop, worksurface
- 3M Dual Lock secures base to mounting surface without tools
- Does not damage mounting surface
- Connector kits available for multiple shields
- Connector configurations: corner, straight, T, four-way

Dimensions

- Heights (in.): 18, 21, 24
- Widths (in.): 20, 24, 30, 36
- Thickness (in.): 1/4

Connection options

- Corner, straight, T, or four-way

Shipping and handling

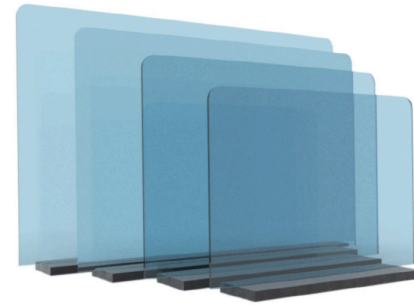

- Weight varies due to size and options selected.
Please consult factory for additional information.

Lifetime Warranty

About TAB

TAB helps you save money, increase efficiency and reduce risk by streamlining the way you store, find and use business assets, paper files and electronic information. We offer filing systems and supplies (including custom folders and labels), high-density storage products, document scanning and indexing, and specialized software to manage records and inventories, and improve document-intensive business processes. Since 1950, we have served clients across North America in a diverse range of industries including government, healthcare, legal, finance, and architecture and design.
